

## **NOTICE of PRIVACY PRACTICES**

### **Physical Therapy at Thrive, LLC**

**This Notice Describes How Medical Information About You May Be Used and Disclosed and How You Can Get Access to This Information. Please Review This Document Carefully.**

#### **About Protected Health Information (PHI).**

**In this Notice, "we," "our," or "us" means Physical Therapy at Thrive, LLC and our workforce of employees, contractors, and volunteers; "you" and "your" refer to each of our patients who are entitled to a copy of this Notice.**

**We are required by federal and state law to protect the privacy of your health information. For example, federal health information privacy regulations require us to protect your information in the manner described in this Notice. Certain types of health information may specifically identify you. Because we must protect this health information, we refer to it as Protected Health Information — also known as "PHI." In this Notice, we tell you about:**

- **How we use your PHI**
- **When we may disclose your PHI to others**
- **Your privacy rights and how to use them**
- **Our privacy duties**
- **Whom to contact for more information or a complaint**

#### **Some of the ways we use (within the organization) or disclose (outside of the organization) your Protected Health Information**

**We will use your PHI to provide you with care and treatment. We will use and disclose your PHI to obtain payment for your care and related services. We use or disclose your PHI for certain activities that we refer to as "healthcare operations." We will also use or disclose your PHI as required or permitted by law. We will provide examples of each of these to help explain them; however, space does not allow for a comprehensive list of all uses or disclosures. If you have any questions, please do not hesitate to contact us.**

#### **1. Treatment**

**We use and disclose your PHI in the course of your treatment. For instance, once we have completed your evaluation, re-evaluation, or Plan of Care, we will send a copy or summary of our report to your referring/attending physician. We also maintain records detailing the care and services you receive at our facility, so that we can accurately and consistently provide the care you need. These records also help us meet specific legal requirements. These records may be used and/or disclosed by members of our workforce to ensure that proper and optimal care is rendered.**

2. **Payment Involving a Third-Party Payer**

After we treat you, we will typically bill a third party for the services you receive. We will collect the treatment information, enter the data into our computer system, and then process the claim either on paper or electronically. The claim form will detail your health problem and the treatments you received. It will include your insurance policy number and other identifying details. If your Social Security number is required, the first five digits will be redacted. The third-party payer may also request a review of your medical records to ensure the services are medically necessary. When we use and disclose your information in this way, it enables us to receive payment for the care and treatment you receive.

3. **Payment Exclusive of a Third-Party Payer (fully self-pay)**

If you choose to pay for your services in full without involving a third party (such as an insurer or employer), you may request that we not disclose any information regarding those services for payment purposes. You will be provided with a Good Faith Estimate (GFE) for all self-paid visits or treatments, regardless of the reason. Exception: You will not receive a GFE if you are enrolled in Medicare Part A, B, or C, Medicaid, TRICARE, Veterans Affairs, or Indian Health Services.

4. **Health Care Operations**

We also use and disclose your PHI in our healthcare operations. For example, our therapists meet periodically to study clinical records and monitor the quality of care at our facility. Your records and PHI could be used in these quality assessments. Sometimes, we participate in student internship programs and use the PHI of actual patients to assess their skills and knowledge. Other operational tasks may include business planning and compliance monitoring, as well as investigating and resolving complaints.

5. **Special Uses**

We also use or disclose your PHI for purposes that involve your relationship with us as a patient. We may use or disclose your PHI to:

**Note:**

If we receive direct or indirect financial remuneration from a third party for marketing a product or item, or for any fundraising we are engaged in, we will advise you in advance and offer you the opportunity to opt out of receiving any of these materials. We will obtain written authorization before using PHI for marketing purposes when required by law.
